Independent auditor's report on review of interim financial information

To the Shareholders and the Board of Directors of Asia Capital Group Public Company Limited

I have reviewed the accompanying consolidated and separate statements of financial position of ASIA Capital Group Public Company Limited and its subsidiaries and of ASIA Capital Group Public Company Limited respectively, as at March 31, 2021 the related consolidated and separate statements of comprehensive income, statements of changes in shareholders' equity and statements of cash flows for the three-month period ended March 31, 2021, and the condensed notes to interim financial statements ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard No. 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Basis for disclaimer of conclusion on the Interim Financial Information

1) As disclosed in Note9.3 to the InterimFinancial Statements, during theyearended December 31, 2018,a customer of a short-term loan receivable account discovered a fraud incident in its purchasing and inventory processes. The customer asked to defer its payment to suppliers and started an investigation. Since the loan receivable account assigned its right to claim payments from this customer to the Company, the Company was also deferred for the payment. On May 30, 2018, the Company issued a legal notice to the customer and the loan receivable account demanding payment. The Company didn't receive any responses to the notices, either to deny or accept the payments from both parties. On August 20, 2018, the Company filed a lawsuit against loan receivable account and the customer at the Civil Court.On June 10, 2020, the Civil Court hasjudged that the customer has to pay Baht 289.56 million to the Company with interest of 15% per annum until the completion of debt settlement. If the customer does not pay all of the said debt, the loan receivable shallpaythe outstanding debt to the Company and the customer and the loan receivableshall jointly pay the court fee.

The customer filed an appeal with the court, and on March 10, 2021, the Company filed an appeal and an objection requesting a palliative of execution. Presently, this case is currently being considered by the Appeal Court.

In addition, Predecessor Auditor had sent confirmation letters to the loan receivable account and the customer, and received a reply from the loan receivable account and the customer which that the amount is not correct and the difference in debt balance amounts cannot be verified. Moreover, the legal case is not yet settled and cannot be concluded. As these circumstances, I was unable to use any additional review methods to obtain sufficient and appropriate evidence to assess the impact on receipt of this debtor, which may be necessary when considering loss on credit of receivable and accrued interest receivable balance (net from provision loss on credit) totalling of Baht 235.97 million which are outstanding as at March 31, 2021 in the consolidated and separate financial statements. Consequently, I was unable to determine whether any adjustments to this amount was necessary.

2) As disclosed in Note 2 to the Interim Financial Statements, the Group has current liabilities as at March 31, 2021 in the amount of Baht 3,121 million, which is significantly higher than current assets and these consist mostly the debentures amounting of Baht 2,477 million matured in one year. Allsuch debentures are in default and many debenture holders have sued the Company to the Civil Court for the Company to pay the principal together with defaulted interest. Currently, the cases are being considered by the Court of First Instance (Note 15).

The Company's plans for the debenture repayment are to receive cash from the possible lawsuit win and from selling of investment property on the enforcement of collateral to settle debt. On February 23, 2021, the Company filed to the Central Bankruptcy Court for the rehabilitation. The Central Bankruptcy Court has set the date of inquiring for the business rehabilitation petition on June 8, 2021. The ability to repay debentures depends on the Company's ability to execute such plan.

Lack of liquidity

As at March 31, 2021, the Company has cash and cash equivalents amount of Baht 9,673 in its separate financial statements. And cash at bank of the Company amount of Baht 1.74 million (present in other current assets) was transferred to the Legal Execution Department 1 according to the Notification of Suspension dated November 12, 2020. The consolidated financial statements, show significant current liabilities in excess of current assets amount of Baht 2,962 million. In addition, the Company currently has no a core operating income.

The Company has defaulted loans to other companies having real estate as collateral and has investment properties which are the part that the Company forced the collateral to pay debts. Forcing the collateral and selling the investment property in order to get sufficient cash flow for operations and repayment of the liabilities will take times. In addition, the current general economic environment has been affected by the outbreak of Coronavirus disease 2019 (COVID-19) which is an obstacle to manage to get a sufficient cash flow.

The Company's operation is in high uncertain in the current situation, such as the success of the negotiation

process to pay debentures, the sale of collateral assets and the findings additional source of fund. Therefore, the

expected recoverable value of the asset may be uncertain depending on various factors and other future situation.

All such above situations represent material uncertainties that may cast significant doubt on the Group's ability to

continue operating.

Despite the above factors, the accompanying financial statements have been prepared under the going-concern

basis assuming that the Company and the subsidiary companies will be able to continue their business operations

as going concerns and that their assets will be realised and their liabilities discharged in the ordinary course of

business without forcing actions, and excluding any adjustments that might be required to present assets at their

saleable value, and liabilities in accordance with the amounts that would have to be repaid, and to reclassify

accounts, in the event the Company and the subsidiary companies were unable to continue their businesses as

going concerns.

Disclaimer of conclusion on the Interim Financial Information

Because the matters described in the Basis for Disclaimer of Conclusion on the Interim Financial Information

havesignificance to the consolidated interim financial information of ASIA Capital Group Public Company Limited

and its subsidiaries and the separate interim financial information of ASIA Capital Group Public Company Limited as

at March 31, 2021 and for the three-month period then ended,I do not express aconclusion on the Interim Financial

Information.

Other Matter

Public Company Limited and its subsidiaries, and of ASIA Capital Group Public Company Limited, presented herein

as comparative information, were audited by another auditor of the same firm, who provideddisclaimer opinion on the

financial statementsbecause of the uncertainto the litigation cases of loan receivablethat affect theloss

If the customer does not pay all of the said debt, the loan receivable shall pay the outstanding debt to the Company and the customer and the loan receivable shall jointly pay the court fees consisting the lawyer fee of Baht 1 million. On November 25, 2020, the customer filed an appeal with the court, and on March 10, 2021, the Company filed an appeal and an objection requesting a palliative of execution. Presently, this case is currently being considered by the Appeal Court.

9.3 During the year 2019, the Company has a defaulted debtor in amount of Baht 491.43 million. Such debtor has the leasehold right as collateral. On November 21, 2019, the Educational Institution ("the Educational Institution") which is an owner of the land for leasehold right issued a letter to the Company to inform the result of consideration condition specified in the debt agreement with leasehold right as collateral which the Company assigns a subsidiary to enter an agreement with the Educational Institution whereby the subsidiary is able to comply with the term and condition in the lease agreement. Thus, the Educational Institution approved the subsidiary to be a contract party and operate Community Mall according to the debt agreement with leasehold right as collateral.

On November 15, 2019, such debtor sued the Company and the Educational Institution to the Southern Bangkok Civil Court as a disputed case, presently this case is under the Civil Court mediation.
